

GreenStuf® Underfloor Insulation

What is it?

GreenStuf® Underfloor Insulation is specifically designed for exposed floor joists. Manufactured from thermally bonded polyester fibres, GreenStuf® Underfloor Insulation is soft and fluffy to touch.

Features & Benefits

Thermal Performance

Simply stapled into place between the joists, it will significantly reduce heat loss and drafts caused by joins in the floor - you'll have warmer feet and a warmer home.

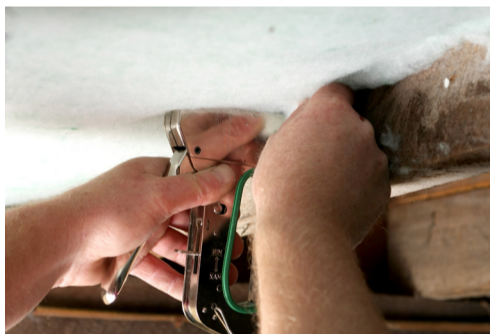

Safety

Non-irritant, non-allergenic and non-toxic.

Durability

GreenStuf® Underfloor is unaffected by moisture, mould and mildew and is naturally resistant to insect and vermin attack. Once installed it will not breakdown, sag, or reduce its performance over time.

Autex Industries, manufacturers of GreenStuf® Insulation provide a 50 year durability warranty on correctly installed GreenStuf® Underfloor Insulation.

GreenStuf® is NZ's best kept secret in insulation

GreenStuf® is made from safe and friendly polyester – just like the pillow and duvet on your bed. Unlike some other insulation products, there are no chemicals added to GreenStuf® insulation so there will never be a health risk to you, your family or our environment. GreenStuf® is even safe for asthma sufferers.

Environmentally friendly & NZ Made

GreenStuf® products all contain a minimum of 45% already recycled polyester made from used and recycled PET plastics like drink bottles and bags. Because there are no additives, GreenStuf® products are fully recyclable at the end of their lives.

Proudly made in New Zealand using a low energy production process, GreenStuf® is among the most environmentally-friendly insulation solutions on the market.
